

PASMA Work at Height (Essentials)

Course Duration : 1/2 day

Course Content:

- Current Legislation, affecting all types of work at height
- Current Regulations and Guidance affecting work at height
- PASMA's current Code of Practice booklet for working at Height

Who should attend:

- Any person who has responsibility for overseeing the work of operatives on site ensuring that work is properly planned and organised and that those involved in carrying out the work are competent and properly trained, and that towers are correctly inspected and maintained
- Health & Safety Legislation stipulates the requirement for competent personnel

Benefits of Attendance:

- A PASMA Certificate and Photo Card will be issued to successful delegates who complete the theory and practical sessions which have a five year validity period.
- This course will help employers to demonstrate compliance with their statutory duty to ensure that all employees must be competent in the work they are asked to perform.
- Falls from height are the biggest cause of fatalities in industry and the guidance provided on this course will help your employees to work safely at height.
